Misure espresse in cm

In order to have a shoe with a sole that fit perfectly, stick to the length of your foot.

If you prefer a shoe that firmly wrap your foot, you should order half a size less.

Pay attention to the plantar arch of your foot while ordering models with a 90 hill, since the higher the hill is, the higher is the chance that the plantar arch will be emphasized. In this case you will need half a size less than with lower hills.

While measuring the plantar, pay attention to the inclination of the pen, it should always be the same one.
